ACHIEVEMENTS

Yearly Performer 2016-2017

Neosoft Technologies

SWAPNIL GHONE
TECH LEAD / WEB DEVELOPER

ABOUT

With over 10 years of hands-on experience in development, project management, and leading teams, I possess a deep understanding of the entire software lifecycle. Having successfully collaborated with clients from diverse countries such as the United States, Germany, Australia, and Japan, I bring an international perspective to my work. In addition to my technical proficiency in PHP, MySql, JavaScript, WordPress, Laravel, ReactJs, and Git, I bring a strategic and comprehensive approach to managing projects and leading teams. My commitment to excellence has contributed to successful project outcomes throughout my career. Seeking opportunities to leverage my expertise in a collaborative environment.

PROJECTS

Renova Worldwide | PHP (WordPress)
Customise MLM Solution

https://renovaworldwide.com/
Role: Worked on developing the entire MLM system, including various Bonus Crons and plugins like Customize Checkout, User Referral, Bulk Discount, etc.

Nimbus Performance | PHP (Laravel)
Shopping site with Affilaite Managment

https://nimbusperformance.com/
Nimbus Performance is an e-commerce platform featuring an integrated Affiliate Management System.
Role: As the Project Manager, I played a pivotal role in overseeing the development of the MLM (Multi-Level Marketing) system and the creation of affiliate portals.

Gizmogul | PHP (Laravel)
Marketplace for refurbished Phones

https://gizmogul.com/
Gizmogul is a marketplace where users can sell their refurbished cell phones. It empowers users to effortlessly sell their devices by guiding them through a user-friendly multistep wizard.
Role: Project Manager, developed the custom vendor module.

Urban Abode | Javascript (React)
Property Listing Portal

https://www.urbanabode.com.au/
Role: Implemented the API calls to fetch properties dynamically. Created functional components for listing and displaying properties, ensuring a seamless and user-friendly experience.

Genesis Framework | PHP (WordPress)
Customize theme framework for WordPress

https://www.wsigenesis.com/
Role: Worked on framework enhancement and adding new features. Developed multiple plugins like WSI-Theme Settings, WSI-Secure, WSI-Redirect, Widgetkit, etc.

WebTutor | PHP (CodeIgniter)
E-tutoring sites which allow teachers to register and take online classes via video conferencing

Role: Worked on the teacher portal, integrated WebEx for video conferencing, and implemented PayPal integration for subscription payments.
